

# Toll-Free Audio & Web Conferencing

*"I just wanted to say that I've been extremely pleased with the teleconference services provided by your company. I've been using your service since April 2003 and it has really been a great tool for our business. We're able to have group meetings to discuss issues with our customers, who are spread throughout the US. I was originally drawn to your company by the competitive pricing. Since then, I've been extremely pleased with the web-based tools and the ability to record and download these conferences. The combination of pricing and features is unbeatable in my book. Anyway, I just wanted to take the opportunity to express my thanks and encourage you to keep up the good work."*

Douglas A. Greene

Vice-President of Technology  
ACO Information Services, LLC

## Your Complete Audio & Web Collaboration

Our Meeting Center offers real-time, collaborative features that enable you to conduct your online meetings with ease.

Complete desktop, application and document sharing, plus video conferencing available. All the tools you need to visualize and manage your meetings from your PC. You can present PowerPoint® slides, share applications and modify Word® / Excel® documents.

AccuConference gives you the power to connect with multiple locations with one single conference call. You are given access to our 24/7 Reservationless Conference Bridge which can be used anytime.

AccuConference lets you easily manage the callers, secure and record your conference, initiate lecture mode, and lock the conference - all from your telephone keypad. AccuConference also has optional web-based conference management – host your own Q&A – all at no additional cost.

**Additional Features**—AccuConference provides a robust collection of special features which will enhance your conference calls.

### Free Call Recordings

Record and download your calls at no additional charge

### Q&A Feature for Large Calls

Host your own Q&A session for large calls – eliminates background noise

### Recording Playback

Dial into your recorded conference at anytime to hear the replay of the conference

### Secure Calls

Prevent callers from entering your call with Conference Lock

### Conference Control

Out-dial participants, mute callers, lock conference, initiate lecture mode, and more

### On-Line Billing

Take full control with billing codes, A/R reporting, and history reports

*"Over the last three years I have led hundreds of teleconferences and used many different conferencing systems – without question AccuConference is the best! I love how I can view the participants on the web during the calls and actually open the line to specific callers without adding extraneous noise from my International callers. And the simplicity of recording and downloading audio from the call seconds after it is completed is amazing!"*
